### Portable Case-Type Welding Fume Purifier SER201

SER201000000000

Portable welding fume extractor with three-stage filtration: spark-arresting metal pre-filter, cartridge filter with efficiency above 99% and activated carbon filter. Compact and fitted with a handle, the SER201 welding fume purifier extracts and filters fumes directly at the point where they are generated, in occasional MIG/MAG, MMA and TIG welding.
Portable mechanical-filtration purifier for extracting welding fumes directly at source. Compact, with a case-type format and carrying handle, it is designed for occasional use with medium-low pollutant concentrations in MIG/MAG, MIG/MAG Pulse, MMA and TIG processes.
