SEQ axial panel fans

Sectors Ventilation,

Applications Fix

Issues Heat, Fumes

COD: SEQ000000000000

Axial wall-mounted fans are ideal exhaust fans for applications where high air flow rates and installation with wall or panel mounting are needed. For example: ventilation of warehouses, gymnasiums, factories, parking lots, farms, cooling of electrical equipment, refrigeration equipment, etc.

Insight

SE● fans on panel are for professional use, characterized by versatility and quality of materials used with production. The fan includes a sturdy cast aluminum hub for attaching the blades, which are profiled by molding different materials, always having the objective of withstanding high working loads. The motor is built following international standards, thus ensuring long-term reliability.

Structure

- Square frame with large suction radius protected against weathering
- Impeller with high-performance airfoil blades made of high-strength technopolymer and cast aluminum hub
- Steel wire motor-side safety net protected against atmospheric agents, made according to UNI EN 294 standard
- Static and dynamic balancing according to UNI/ISO 1940/BS 6861 - 1ì standard
- Three-phase or single-phase asynchronous motor, EEF 1 and 2 efficiency, suitable for operation by speed regulation, IP 55 protection, class F insulation, S1 service, execution 5, conforms to IEC/ EEC specifications (UNEL-MEC)
- Air flow from motor to impeller
- Supply voltage available single-phase Volts 230 Hz 50 (adjustable with regulator) or three-phase Volts 230/400 Hz 50 (adjustable with inverter)

Accessories

- Accident-prevention mesh on indoor side
- Gravity shutter
- Spacer
- Single-phase speed regulator
- Inverter

Simple installation

1. Drill a circular hole with a diameter 50mm larger than the nominal diameter of the impeller
2. Fasten the fan using the 4 holes in the corners of the panel, with dowels or through screws

Full description in manual inside carton package

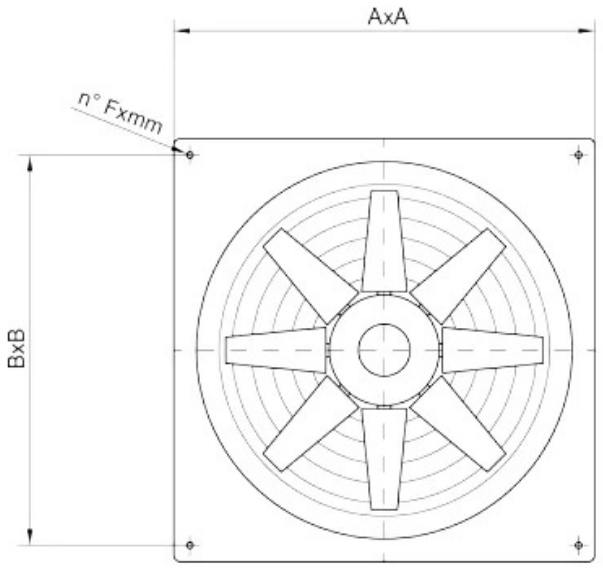

Superior quality

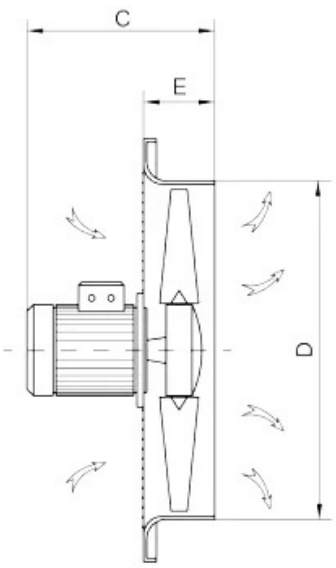

- 100% made in Italy
- CE certification according to machine dir
- Maintenance manual in Italian
- Italian warranty

ASTRA destratifier

ASTRA0000000000

ASTRA destratifiers **increase the efficiency of the heating system** by preventing the accumulation of warm air in the upper parts of buildings. The fan redirects heat downwards, thus reducing heat loss and preventing heat loss to the outside.
The result is rapid heating of the building, resulting in energy savings due to better overall system efficiency.

SEQA14000000000

High-flow axial fans suitable for wall or overhead installation to **create a uniform indoor climate and recirculate air in commercial and industrial buildings, farms, barns, and greenhouses**.

HVLS industrial 5-blade ceiling fan APBG5

SMHS00000000000

APBG5 5-Blade Industrial Ceiling Fan

- 5 Blades Extruded Aluminum Anodized Against Corrosion Constant Section
- Increased Air Distribution Cone
- Three-phase Brushless EC motor equipped with Integrated Electronic System and EMC filters
- 3 Sizes with Diameters 3.6m / 5.4m / 7.3m
- Air Flow Rates up to 438,818 m3/h (AMCA230-99)
- 110 RPM Max
- Pot. Max Ass. 0.75 kW

HVLS industrial 5-blade ceiling fan APBG5S

SWHS00000000000

HVLS Industrial 5-Blade Ceiling Fan APBG5S

- 5 Blades Extruded Aluminum Shaped Profile
- Narrow Cone Air Distribution
- Three-phase Brushless EC motor equipped with Integrated Electronic System and EMC filters 3
- Sizes with Diameters 4m / 5m / 6m
- Air Flow Rates up to 529,464 m3/h (AMCA230-99)
- 120 RPM Max
- Pot. Max Ass. 1.4 kW

MADE IN ITALY

- Suitable for continuous duty S1

Industrial 3-blade ceiling fan HVLS3

SLHS00000000000

HVLS 3-Blade Industrial Ceiling Fans.

- 3 Blades Extruded in Anodized Aluminum against Corrosion with Constant Cross Section
- Precabled 3-phase Brushless EC motor equipped with Integrated Electronic System and EMC3 filters
- Sizes with Diameters 2.4m / 3m / 3.6m
- Air Flow Rates up to 134,271 m3/h (AMCA230-99)200
- Max RPM
- Pot. Max Ass. 0.7 kW
- Suitable for continuous duty S1.
