17kg activated carbon filter kit for MFU

Sectors Welding,

Applications Mobile

Issues VOC fumes, Odours

COD: MFU21WECA170001

Replacement filter kit for 17 kg activated carbon filter stage - for all MFU purifiers from 2021 onward. Refillable version.

Insight

In the case of odors to be abated or the presence of SOV-COV to be abated and when required by local regulations, a **filter stage with activated carbon filtration** can be added to remove even the most persistent odors.
Filter features:

- galvanized steel structure and nets
- mesh that can be opened on one side for filter emptying and refilling with new activated carbon
- Kg 17 of granular activated carbon

Activated carbon features:
Activated carbon in cylindrical form, 4 mm. in diameter, obtained by physical activation with steam in an inert atmosphere of natural mineral carbon. It is suitable for purification of gas streams containing organic solvents and odor removal.
- Particle size (diameter, mm.) 4 ASTM D 2862
- Apparent Density (Kg/m3) 600 ± 30 ASTM D 2854
- Moisture at Packing (%) < 3 ASTM D 2867
- Ash Content (%) < 12 ASTM D 2866
- Hardness (%) > 97 ASTM D 3802
- Specific Surface Area (m2/g) > 650 B.E.T. Method.
- CCl4 Index (%) > 30 ASTM D 3467
- Iodine Index (mg/g) >650 AWWA B 604- 74
