

Spacer for fixing SEQ fans on thin walls

📌 Sectors

📌 Applications **Fix**

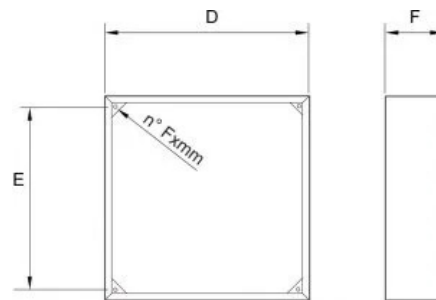

📌 Issues **Odours**

COD: DISSEQ000000000

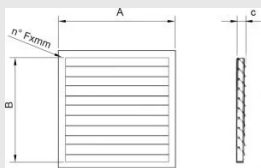

Rectangular spacer for fixing on thin walls for SEQ model fans.

Insight

The spacer is 140mm thick for installation of the axial fan on very thin walls or panels (less than 200mm). This spacer flange is for being able to fix the fan when the wall or panel, on which they are to be mounted, is less than 200mm thick.
