

DFC11NBM dust extractor with self-cleaning filters without arm

📌 Sectors [Welding, Grinding, Powder blowing, Sanding](#)

📌 Applications: [Mobile](#)

📌 Issues [Powders](#)

COD: DFC11NBM0000000

The DFC series wheeled fumes and dust extractor is designed for the extraction and filtration of fumes and micro-dust, even very fine and volatile dust generated during surface treatment processes of metals or composite materials.

Detailed description

The DFC series wheeled fume and dust extractor is designed for the extraction and filtration of even very fine and volatile fumes and micro-dust generated during surface treatment processes of metals or composite materials:

- Welding
- Grinding
- Deburring
- Sanding
- Rolling
- Cutting

Thanks to its compact size, wheels and handles, it can be easily moved to the vicinity of the work to be done and then vacuum the fumes using the various accessories available or a simple hose.

ADVANTAGES

- Fast suction of fumes and dust near the source thanks to the high flow rate
- Mobile: allows you to reach a variety of welding spots
- Dust and chips collection box positioned on the pass part of the machine, on request with nylon bag
- Filtration with cartridge filter $\geq 99\%$
- Automatic filter cleaning with compressed air flushing for maximum energy savings and long life of filter elements
- 1100W single-phase power can be connected anywhere with a simple industrial outlet
- Low maintenance due to automatic filter cleaning

TECHNICAL SPECIFICATIONS

- Sturdy galvanized sheet metal construction;
- 20 sq m filter surface with cellulose/polyester/antistatic polyester cartridges;
- Automatic cleaning by compressed air;
- Built-in 1.1kw fan;
- Handy collection drawer (bag on request)
- Suction on/off switch;
- Adjustable filter cleaning timer;
- Single-phase electrical plug;
- Handles for easy handling.

CONSTRUCTION

- Compact and easy-to-handle structure;
- Cartridge filtration with 99% efficiency and re-introduction of air into the room;
- Automatic compressed air filter cleaning with on-board connection and condensate drain
- On-board panel with single-phase plug ready to use;
- Armless version, to be completed with fittings on suction as required

Advantages of buying with operational leasing in 12/24/36 or 48 convenient instalments

- No advance payment, no pro-rata.
- First fee in about 30 days from the purchase
- Fully deducts the fees for IRES purposes without obligations deriving from the minimum duration of the contract expected by the T.U.
- Fully deducts the fees for IRAP without distinction between assets and interests.
- Basilea Advantage 2: thanks to the rental, the good used is "out-of-asset", so it does not need a correspondent asset.
- All Risk insurance is included in the fees to cover possible claims.
- Fixed rate for all the operations.
