Replacement filter kit SBVH suction tables with HEPA filtration H13

Insight

Complete filtering section consisting of two stages :

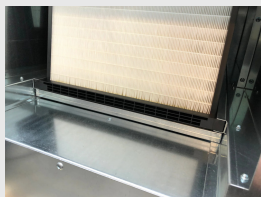

- **23 mm thick flat filters** composed of a galvanised sheet metal U-profile frame, two electrowelded galvanised steel wire retaining nets and filtering media made of layers of metal mesh in aluminium cuspidated braid.
- **hEPA H13 filters** consisting of a moulded polypropylene frame with high mechanical resistance inside which the filter panels are housed. The filter media is made of fire-retardant and water-repellent glass microfibre paper is pleated and evenly spaced by thermoplastic separators.
