FRV wall-mounted smoke extractor with Superflex™ arm and fan

Sectors Welding,

Applications Fix

Issues Fumes

COD: FRV000000000000

The**FRV arm-mounted wall-mounted fume extract** or is the ideal solution for effectively and closely extracting welding fumes as required by regulations.
Simple to install on the wall or column, it comes in a kit complete with everything needed.

Insight

The **FRV wall-mounted fume extractor with arm is** easy to use and increases productivity by reducing work cycles. The extraction arm remains suspended without the need for additional supports, allowing the operator to move and position it effectively without wasting time.
The working radius is 3 or 4 meters depending on the model.
Flow rate: 1500 m³/h
Motor: 1500 W - 220V/1f/50Hz
Installation: wall-mounted
Extractor: YES / to be connected to a circular section exhaust pipe
Operating temperature: from -20°C to +70°C
Maximum vacuum: 1600 Pa
Structure

- Self-supporting structure designed to last over time and ensure maximum maneuverability while maintaining perfect balance.
- Black flexible suction hose made of special reinforced PVC and high temperature resistant steel, easy to replace.
- Truncated cone-shaped suction hood with rectangular base, made of plastic. The screen limits the suction area, significantly increasing its effectiveness. Complete with handle and, on request, adjustment damper.
- Sturdy welded and painted steel bracket for wall or column mounting of the suction arm and fan.
- High-performance centrifugal fan already mounted on the shelf, directly coupled to a 1.5 kW single-phase 220/1/50 electric motor.
