# Mobile dust extractor ATEX-certified model SAW1

COD: SAW100000000000

The SAW1 dust extractor is the ideal solution for cleaning hazardous dust deposits within work areas at the end of a shift, particularly on the surfaces of extraction benches or for cleaning collection drawers, thereby reducing ATEX risk.

## Insight

The ATEX-certified dust extractor model SAW1 is compact and easy to use. It is designed to safely remove dust and liquids in work environments classified as medium explosion risk areas. It combines the robustness, high performance, and filtering capacity typical of an industrial extractor with the practicality of use typical of a traditional vacuum cleaner.
Thanks to a convenient handle on the container, it can be transported in a horizontal position, and once placed in the work area, it rests on a trolley equipped with 4 wheels, 2 of which are swivel casters, for easy movement within the work area.
A second handle allows the motor head to be lifted for filter inspection, or alternatively for transporting the machine.
The extractor is equipped with a filter cleaning system via a convenient filter-shaking lever that helps dislodge accumulated material, ensuring optimal performance.
This dust extractor is ideal for cleaning hazardous dust deposits on the surfaces of extraction benches or for cleaning collection drawers, thereby reducing ATEX risk.
It comes standard with a kit of antistatic accessories to work at its best in all conditions.
MARKING: II 1/3D Ex h tb II IC T80°C (Int) /T95°C (ext) Da/Dc
Compliant with EN IEC 62784:2018 for Zone 22.
